DC GIS Steering Committee Meeting
March 16, 2006

Barney Krucoff
GIS Director
Office of The Chief Technology Officer
Barney.Krucoff@dc.gov
202-727-9307

Agenda

- Introductions – Barney Krucoff
- DC GIS News – Barney Krucoff
  - Web Site Update
  - Planimetric Map Update
  - Regional Geospatial Interoperability Update
- Data Report – Mario Field & Group
- Training Report – Tim Abdella
- GIS Systems consolidation update – Zhen Lo
- GIS Program Restructuring – Barney Krucoff / Adam Rubinson
- Agency Presentation:
  - DC EMA – Joshua Jack

Our Next DC GIS Steering Committee Meeting has been scheduled
Thursday, May 11, 2006, at 1:00 p.m., Conference Room 1117
441 4th Street NW.

News Items

- GIS Liaisons are now OCTO Liaisons report to the PMO (Sandra Borden)
  - David Seidman
  - Ed Wells
  - Caroline Molivadas
  - Robert Horne
  - Mike Clifton
- David's duties are changing the most
- Other liaisons will continue to perform similar functions and have the opportunity to provide broader support.

News Items

- GIS Budget
  - Capital funding of GIS has been generous in the past.
  - For 2007 The Budget Review Team (BRT) recommended that the capital budget (N1602B and ZA143C) be cut/deferred by 90%. This was not an enhancement request. Last year's capital budget book had $3.5M for GIS in 2007. Now we will have $350,000.
  - Neither OCTO GIS nor this committee was asked to defend what was in the budget book, nor were we asked about the effect of the cuts.
  - GIS continues to have a very thin operating budget within OCTO's Egov account. For 2006 that budget pays for:
    - Three FTEs
      - Barney Krucoff, GIS Director
      - Cheryl Harris, Project Coordinator
      - Mario Field, Data Team Lead
    - Approximately $200,000 for other non-personnel service items
  - A $905,000 operating budget enhancement request was made
  - More about this later in the meeting

News Items

- http://dcgis.dc.gov remake approved yesterday
  - Moves site to DSF content management system and content similar to our intranet site (http://dcgis.in.dc.gov) for the public.
  - Urban Area Security Initiative Concept Paper requests $1M with focus on regional data development
  - Coordination needed with various software packages and standards with both complementary and overlapping capabilities are vying to be the regional geospatial data clearing house and or map viewer.
    - MEGAN, EMA (ArcIMS, State of Maryland)
    - Mapping within WebEOC
    - CapStat
    - VR3 (ArcIMS, State of Virginia)
    - Others

News Items

- MAR Web Service Change April 7
  - Adds Redundant hardware
  - Allows DCGIS.dc.gov to go to DSF
- You will need to make the following code change to every application that calls the MAR Web Service.
  - From: “http://dcgis.dc.gov/newwebservices/locationverifier.asmx”
  - To: “http://citizenatlas.dc.gov/newwebservices/locationverifier.asmx”
- Path to the Mobile Video images will also change
- The new version is live and ready to use now.
- For assistance please contact Tianpu.Liang@dc.gov.
- This change will also be announced/processed through Remedy and the Change Control Board.

News Items

- Proceeding enterprise software solution
  - OCTO uses consortium funds to buy a sufficient number of licenses and makes them available in a central pool and make them available to agencies.
  - Use is monitored and additional licenses added as needed
  - Agencies buy their own serve side licenses and mobile licenses
  - Agencies that already have significant pools of licenses may chose to be consolidated into the central pool.
    - If you do this, the Consortium account pays annual maintenance
    - Agencies in the process of migrating licenses
      - DCRA
      - FEMS
      - OTR
    - Agencies now encouraging the use of Citrix
      - MPD
      - DDOT

News Items

- MWCOG GIS Committee update
  - Urban Area Security Initiative Concept Paper requests $1M with focus on regional data development
  - Coordination needed with various software packages and standards are being evaluated to be the regional geospatial data clearinghouse and or map viewer.
    - MEGAN, EMA (ArcIMS Maryland)
    - WebEOC
    - CapStat
    - VR3 (ArcIMS Virginia)
    - Others

News Items

- National States Geographic Information Council Spring (NSGIC) Meeting
  - State level GIS coordinators meet in Annapolis next week.
  - Agenda items of interest to NSGIC and DC
    - Imagery for the nation
    - National addressing standards
    - Census Title XIII reform
    - Next generation E911
    - Federal Geospatial Enterprise Architecture

DC GIS Data Status Report

Mario Field

DC GIS Data Team Lead

Updated DC GIS Data

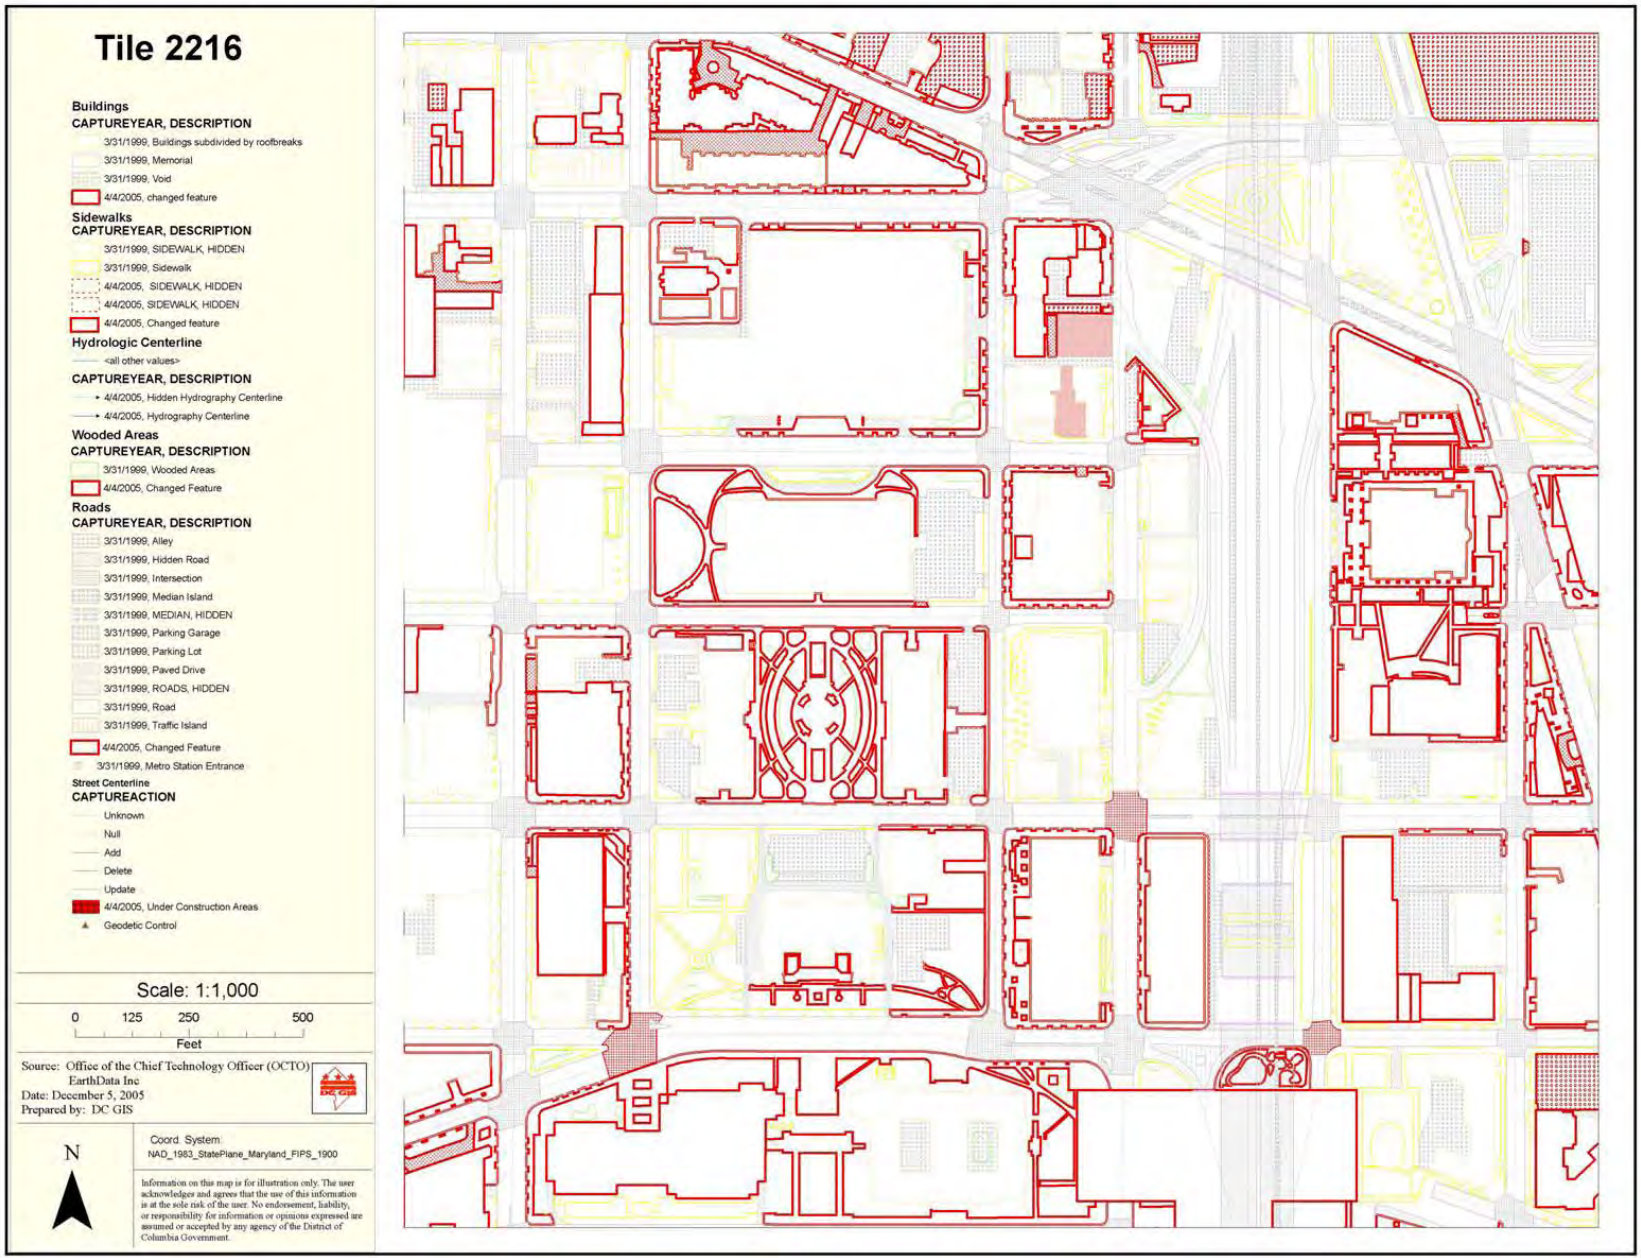
- Address Point (MAR)
- Air Emission
- CAMA
- Certificate Of Occupancy
- Digital Globe Satellite Imagery (10/05)
- Fire Alarm District
- GSA Federal Building
- Hazardous Waste
- Heliport
- Historic District
- Landmark
- Other Bus Line
- Other Bus Stop
- Overlay Zoning
- Owner Point
- Sale Point
- Toxic Release Inventory
- Water Discharge
- Zip Code
- Zoning

Current DC GIS Data Update

- **BIDPly**
- **Bike Lane**
- **Bike Trail**
- **Fire Station**
- **Signed Bike Route**
- **Digital Globe Satellite Imagery (2/06)**
- **Fire Alarm District**
- **Fire Battalion**
- **Homeless Service**
- **No Fly Zone**
- **Waterbody**

➢ **April 2006 publication**

Planimetric Data Update



ESRI National Data

- **70 Feature Classes**
  - **Boundary**
  - **Census**
  - **Landmark**
  - **Recreation**
  - **Transportation**
  - **Water**
- **Layers not loaded yet:**
  - **Rivers**
  - **Census Block Centroids**
- **Available on Citrix: DC GIS Tool Bar**

DC GIS Bi-Annual Training Report

Tim Abdella

GeoSpatial Education Director

Objective

- Improve the quality and lower the cost of GeoSpatial Education provided by the District of Columbia to its personnel
- Fulfill DC GIS Service Line Mission
- Disseminate and Demystify GIS across DC Government

Meeting the Objective

From September 2005

Goal	Status
Custom Classes	Several courses written
CWD	3 continuing classes
Marketing	Literature & digital media
Web Site	Training page & Documentation
Online Training	Course material available
e-Newsletter	Sent Monthly
Student Registry	Framework in place
Doctors Office	Informal, something to improve
Semi-Annual Report	Presented today

Bi-Annual Review

- Internal Improvements of Central GIS
- Dissemination & Demystification of GIS
- Cooperative outreach with established DC Government training Institution (CWD)
- Training & User Guide documentation development
- Monthly DC GIS Education Newsletters
- Website development and maintenance

Improvements needed

- Class attendance
  - Intro classes full
  - Other classes suffer
  - “Managers” class should be considered Intro class
- Course material
  - Refined to reduce workload?
  - 25% finish, 50% complete most tasks, 25% left behind
- Students
  - Basic computer skills needed: (typing, mouse-ing, GUI interaction)
  - GIS is an Advanced IT, users need baseline skills

What more do we need to do?

Agency Support

- Education & Demonstration of Integrated GIS Technology to support established Business Process

- Development of custom applications & Training
  - DCEO – underway this month
  - DOH – momentum gaining
  - MPD – embracing Central repository
  - DCRA – establishing business process
  - OAG – symbiotic relationship
  - DDOT – Spotlight on next slide

Thank you: Tianpu Lang, Zhen Lo, Jennifer Mack, Patrick Nowlan & GIS Data Team

DDOT Spotlight

- Collaborative Integration
- Direct Connection to DDOT Data Repository
- Customized Citrix user Experience
- Focused Training planned
- Example model for other agencies

Demonstration

District Department of Transportation

6-Month Outlook

- VPM Maintenance Tool training – OTR
- MAR Maintenance Tool training – DCRA
- UFA Trees transactional System – DDOT
- DOH – Growing administration interest
- Outreach to NGO's (non-government organizations)
  - WMATA
  - WASA
  - Utilities
  - Vocational education
- Continued Improvements of support Infrastructure

Q&A

Timothy L Abdella

GeoSpatial Education Director

Office of the Chief Technology Officer

441 4th Street, NW

Washington, DC 20001

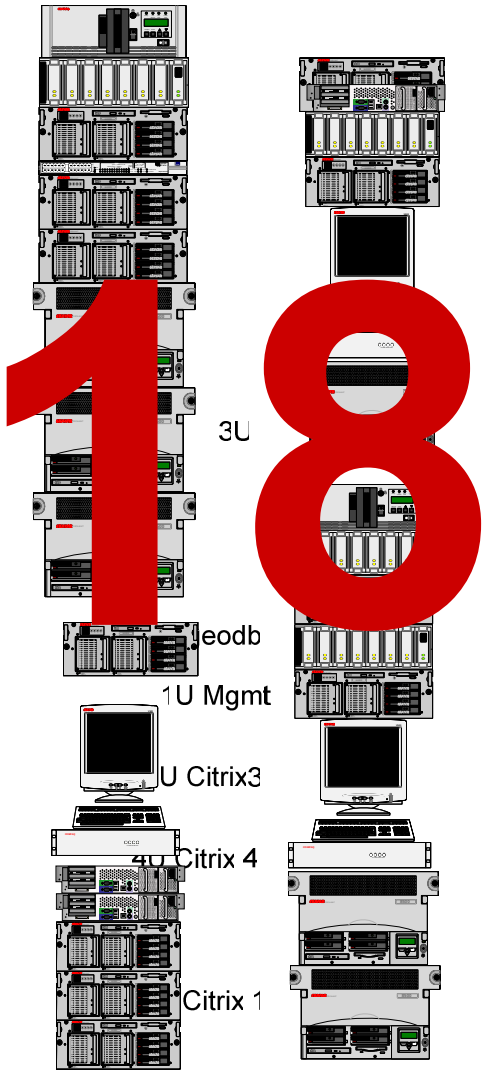
Thank you

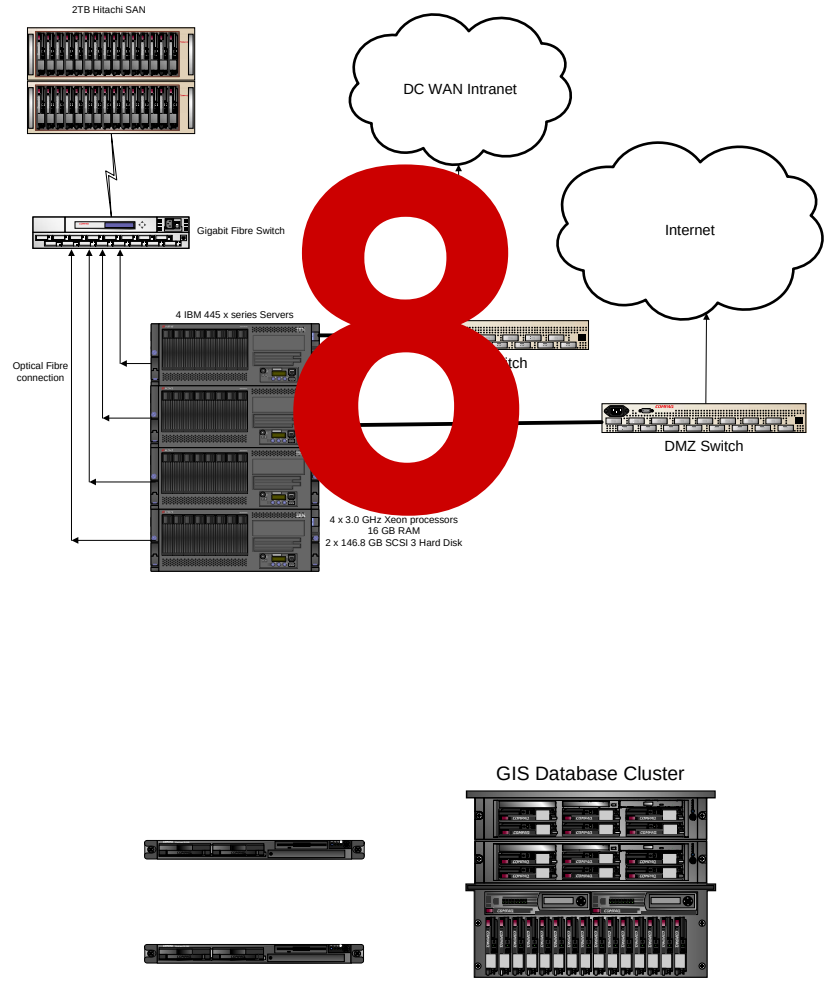
GIS Systems Consolidation Update

Zhen Lo

GIS Systems Lead

Server Consolidation





Overall View

- All Hardware has been procured and delivered
- Geodatabase cluster is in testing and design phase
- 2 of 4 ESX servers are racked and ready for deployment at a Datacenter
- Migration efforts have started for phase 1
- Portal development has kicked off
- WMS and WFS service has been deployed
- Metadata repository and service in development

Project Phases

- Phase 1
  - Consolidate and update Intranet Services
    - Citrix
    - Metadata service
    - Imagery
    - Geodatabase Cluster
- Phase 2
  - Consolidate and update Internet Services
  - DCGuide, WMS, WFS, MAR
- Phase 3
  - New Services (GIS Portal)
  - Agency Participation in enterprise data management
  - ArcServer applications, Common GIS services

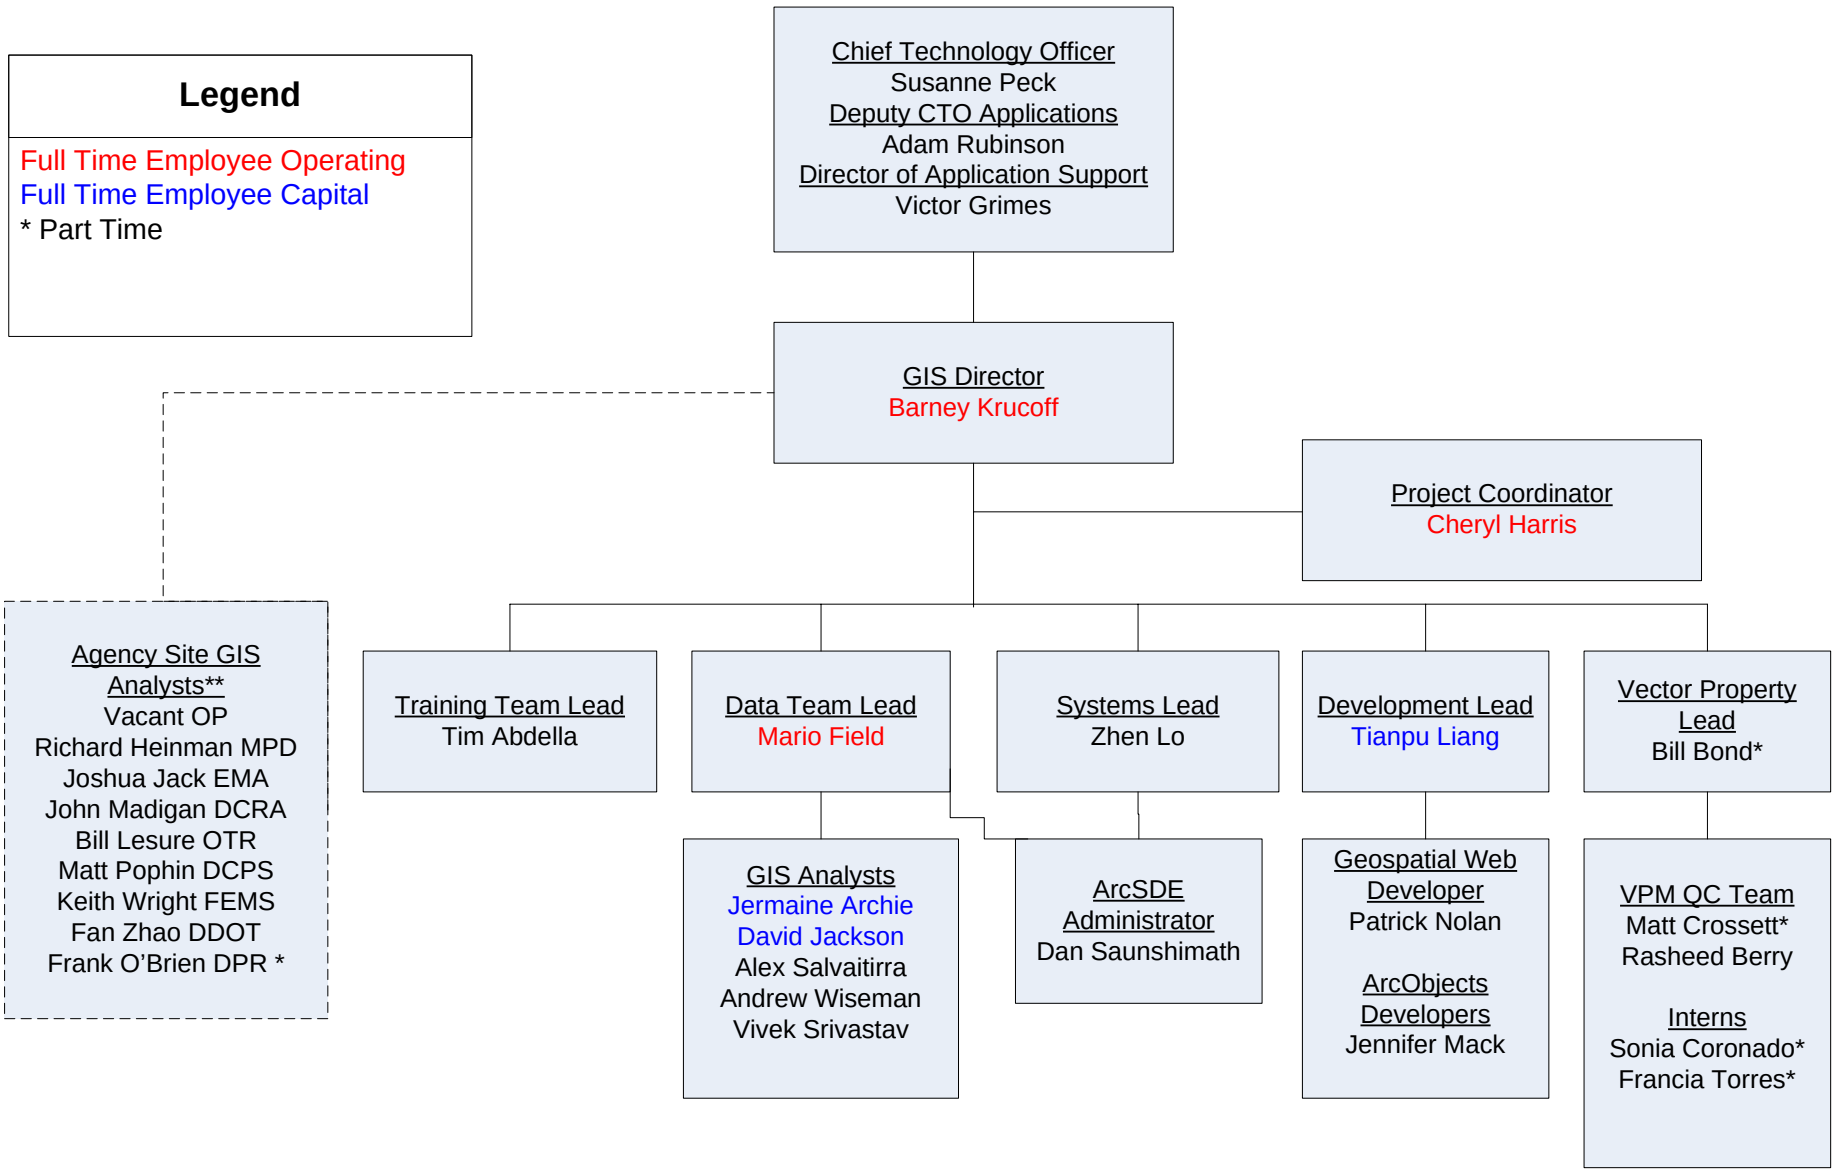
Phase 1 (April 1st)

- **Citrix**
  - Drastic increase in performance
  - 50-100 megabytes of dedicated space under each user profile
  - Deployment of ArcGIS 9.1 SP1 with supporting tools
- **Geodatabase**
  - Versioning and topology
  - High availability and performance
  - Rasters and imagery
  - Direct connect support for all ArcIMS 9.1
  - Metadata service (preliminary)
- **Active Directory**
  - Migration to 2003

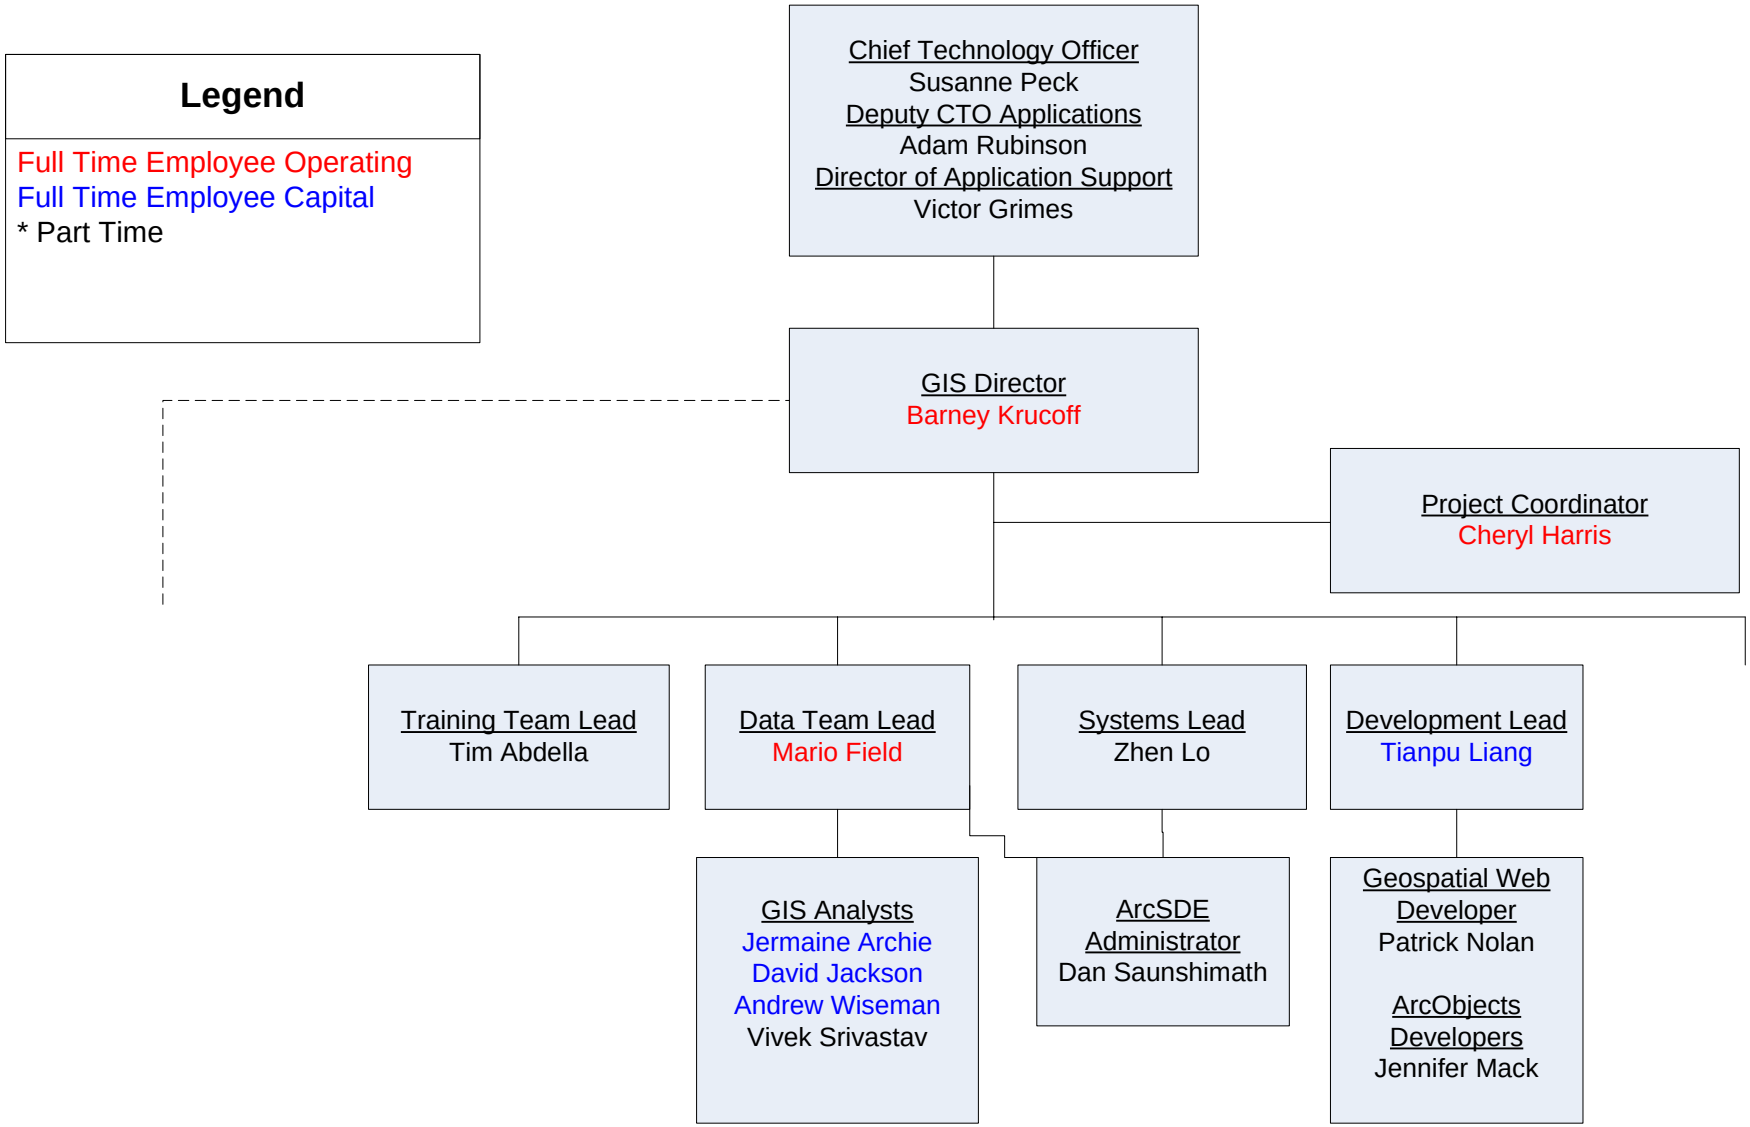
GIS Program Restructuring

Barney Krucoff

Current Organization



Sustainable Organization (Hopefully)



Revenue and Spending YTD

FY 2006 GIS Associated Revenue (10/1/05)		
N1602B cary over	$	620,933.59
N1602B load	$	1,000,000.00
ZA143C carry over	$	980,672.00
ZA143C load	$	1,500,000.00
Total	**$**	**4,101,605.59**
FY 2006 GIS Obligations		
OCTO PMO for 2006 & 2007 (16%)*	$	(656,256.89)
OCTO Reserve For Next Year (50%-350000)*	$	(1,700,802.80)
Capital FTEs (several non-GIS)	$	(680,000.00)
Capital Obligations YTD	$	(545,880.00)
Total	**$**	**(3,582,939.69)**
Maximum Available To Spend Rest of 2006	**$**	**518,665.90**
*OCTO Sustainability Budget Policy		

Spending Remainder of 2006

Procurement Name	Commodity Type	RQ# (if Established)	Estimated Value of Action	Keep	Cost	$ 518,655.00
Multiple GIS Analysts	Augmentation	RQ230821	$495,000	n	$ -	**$ 518,655.00**
Add Public Land to Vector Property Map	Service		$200,000	n	$ -	**$ 518,655.00**
ESRI Software Maintenance	Software		$120,000	y	$ 120,000.00	**$ 398,655.00**
OTR GIS Suppoort	Augmentation	RQ190203	$118,482	n	$ -	**$ 398,655.00**
ArcObjects Developer 2	Augmentation	RQ208025	$95,000	y	$ 95,000.00	**$ 303,655.00**
ArcObjects Developer 1	Augmentation	RQ208019	$80,000	y	$ 80,000.00	**$ 223,655.00**
Business Data for DC Guide	Service	RQ247041	$80,000	n	$ -	**$ 223,655.00**
GIS Systems Lead	Augmentation	RQ245272	$80,000	Y	$ 80,000.00	**$ 143,655.00**
Additional Bridges to soften cuts	Augmentation		$75,000	n	$ -	**$ 143,655.00**
Oracle Software Maintenance	Software		$30,000	y	$ 30,000.00	**$ 113,655.00**
Operational Stuff	Service		$60,000	n	$ -	**$ 113,655.00**
Master Address Repository Maint	Augmentation		$60,000	y	$ 60,000.00	**$ 53,655.00**
Zhen Lo Bridge	Augmentation		$25,000	y	$ 25,000.00	**$ 28,655.00**
Regional Data	Data		$15,000	n	$ -	**$ 28,655.00**
Citrix Software Maintenance	Software		$10,000	y	$ 10,000.00	**$ 18,655.00**
Satellite Imagery	Service		$10,000	y	$ 10,000.00	**$ 8,655.00**
Routing Data	Data		$10,000	y	$ 10,000.00	**$ (1,345.00)**
			$1,563,482.00		$ 520,000.00	

Projects we can still finish

- Infrastructure Consolidation
- System Operations
- 2005 Planimetric Update
- MAR Maintenance
- Embed GIS on more agency web sites
- Training Program
- Smaller Data Sets Maintenance
- New data catalog and web services

- Vector Property Map (Transfer to DCRA)

What won't happen in 2007

- Onsite Agency Support
- New mapping in 20007
  - Orthos (with USGS)
  - Planimetric Update
  - Pictometry
  - Business data
  - Mobile Video
- Major Projects falling off the radar
  - Contour/Digital Terrain Model Upgrade
  - 3D Mapping
  - Adding units to the MAR
  - Underground Mapping (with DDOT)

The Memo

- Why
  - If they cut and no one complains, they cut the right thing.
  - We have a good story to tell
- What we hope gain
  - Recognition for what we have accomplished
  - Go on the record that DC GIS needs/deserves operating money
  - Head off a cumbersome charge back system
  - Maybe get some money

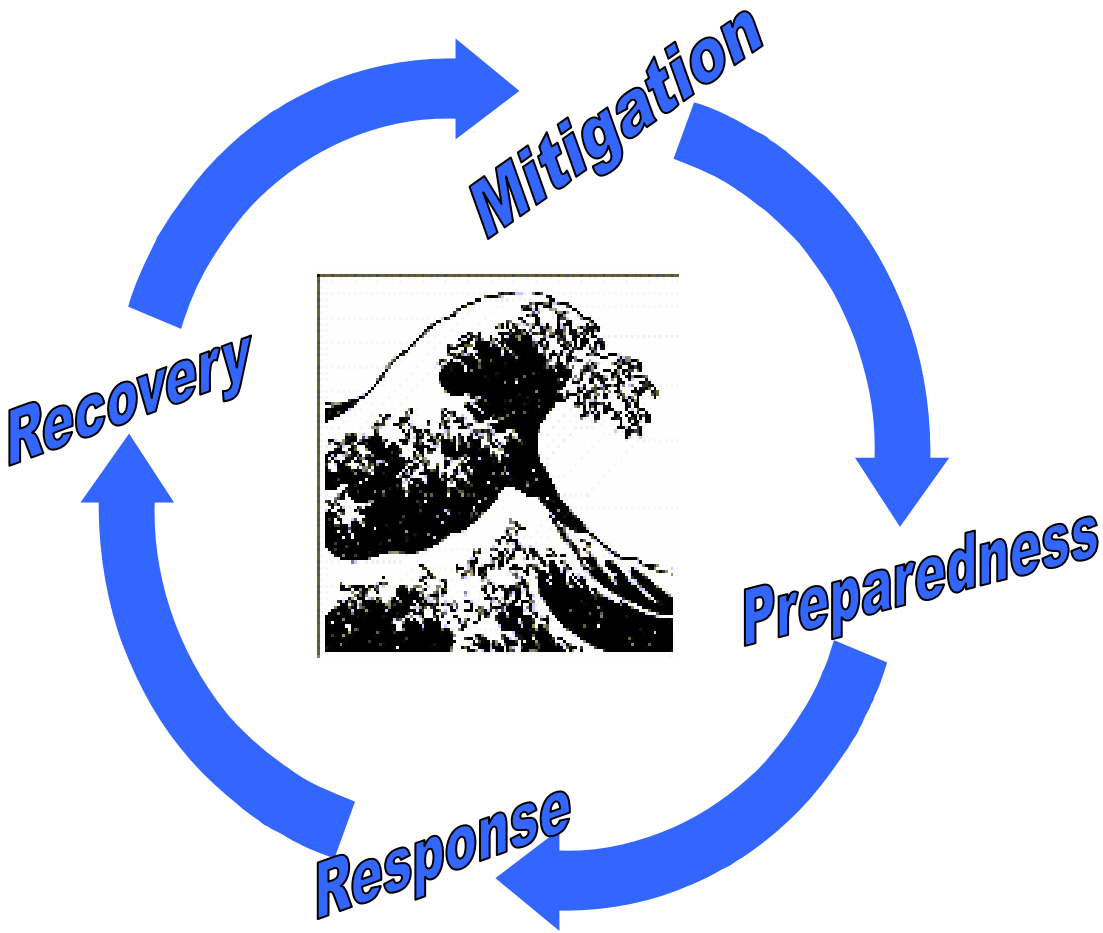
District of Columbia

Emergency Management Agency

Anthony A. Williams
Mayor

Barbara Childs-Pair
Director

DCEMA Participates in the 4 Phases of Comprehensive Emergency Management



The 15 District Emergency Support Functions (ESFs)

1. **Transportation**
   District Department of Transportation
2. **Communications**
   Office of the Chief Technology Officer
3. **Public Works and Engineering**
   Department of Public Works
4. **Fire Fighting**
   DC Fire and EMS Department
5. **Information and Planning**
   Emergency Management Agency
6. **Mass Care**
   Department of Human Services
7. **Resource Support**
   Office of Contracting and Procurement
8. **Health and Medical Services**
   Department of Health
9. **Urban Search and Rescue**
   DC Fire and EMS Department
10. **Hazardous Materials**
    DC Fire and EMS Department
11. **Food**
    Department of Human Services
12. **Energy**
    DC Energy Office
13. **Law Enforcement**
    Metropolitan Police Department
14. **Community and Media Relations**
    Office of Communications
15. **Donations and Volunteer Management**
    DC Commission on Community and National Service

DCEMA Mission Statement

The Mission of the *Emergency Management Agency*…

is to administer a comprehensive community-based emergency management program

in partnership with the residents and businesses of the District of Columbia

so that together we can reduce the loss to life and property and protect the environment.

EMA executes its mission in coordination with District, Regional, Federal and private sector agencies to meet new and continuing challenges

Regional and National Coordination

- **FRP**
- **DRP**
- **Virginia EOP**
- **Maryland EOP**

Federal

- **Regional Plan**
- **Terrorism Annex**
- **County Plans**

Maryland **District of Columbia** **Virginia**

DC's List of Top 18 Hazards

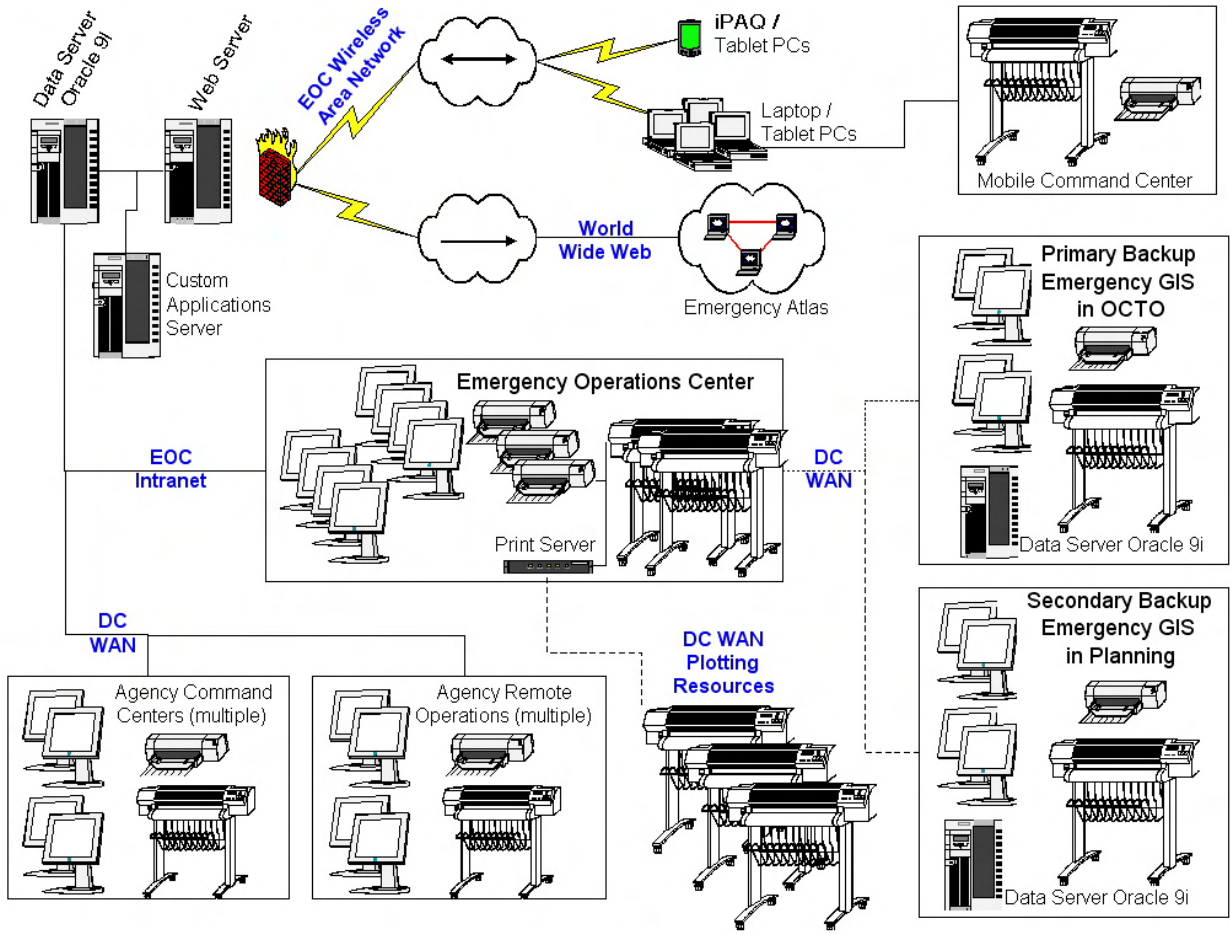
- Terrorism (WMD and Conventional)
- Winter Storms
- Urban Fires
- Transportation Accidents
- Special Events Demonstrations
- Urban Floods
- Water Supply Failure
- Critical Resources Shortages
- Utility and Power Failures

DC's List of Top 18 Hazards *(cont.)*

- Human Viruses and Epidemics
- Hurricanes
- Thunderstorms/Tornados
- Radiological and Hazardous Materials Incidents
- Prison/Jail Incidents
- Civil Disorders
- Explosions
- Earthquake
- Extreme Heat/Cold

GIS Architecture

- **Wholly contained within EMA**
- **Full Redundancy**
- **Field Deployable**
- **Remotely Accessible**



Objective

To save lives and protect property and the environment in the District of Columbia by focusing on the following emergency management priorities:

- Emergency Operations Center (EOC)
- Emergency Communications Center (ECC) Functions – 24 hour
- Planning and Training Functions
- Special Events and Public Information
- Mitigation and Recovery Services

Situational Awareness Support

In situational awareness, real-time or near real-time information is key. GIS integrated with:

- Traffic Cameras
- Mayor's Call Center
- Weather
- Other Emergency Service Providers
- CIMS *

DDOT Traffic Cameras

Future Enhancements

- **More sophisticated/capable integrated GIS for WebEOC**
- **Additional real-time/near-real time information**
  - **DDOT camera view angle**
  - **911 information**
  - **Traffic Conditions**
  - **24/7 Call Center information**
  - **Detailed weather information**
  - **METRO Cameras**
  - **HazMat Sensors**

Thank you
